SUMMARY

Full Stack Engineer with 3+ years building production-grade web apps across the full stack. Frontend: React.js, Next.js, TypeScript and Tailwind CSS, building pixel-perfect, accessible UIs from Figma. Backend: Node.js, NestJS, MongoDB, Firebase and REST APIs, deployed with Docker, CI/CD and VPS. Led frontend development for a Guinness World Record ONDC campaign that processed 240,000+ orders across 9,000+ sellers. AI-assisted development (Cursor, LLMs, RAG).

PROFESSIONAL EXPERIENCE

Full Stack Software Developer — *Sabhyasha Retail Tech LTD* **Jan 2024 – Present**

- Led frontend development for an ONDC-based rural e-commerce platform (React.js, Next.js), powering a Guinness World Record campaign that processed 240,000+ orders across 9,000+ women sellers.
- Built pixel-perfect, responsive UI components with Tailwind CSS and ShadCN UI, translating Figma designs into production-ready interfaces across 29,000+ product listings.
- Implemented client-side state management and API integration with Redux Toolkit/RTK Query across Node.js/MongoDB APIs and Firebase, keeping role-based dashboards fast and consistent under 90,000+ peak orders.

Full Stack Web Developer (Contract) — *Brand & Visual* **Apr 2022 – Present**

- Converted Figma and PSD designs into pixel-perfect, responsive WordPress/Elementor layouts.
- Built frontend interfaces for full-stack applications using React.js, Next.js, and TypeScript.
- Maintained and debugged live websites to ensure consistent speed and SEO performance.

Software Developer — *Apna Byte* **Aug 2023 – Dec 2023**

- Converted Figma designs into React.js interfaces, focusing on layout accuracy and responsive behavior, while mentoring a small team of junior developers.

MERN Stack Developer (Intern) — *Stackkaroo.com* **Jun 2023 – Aug 2023**

- Built Next.js features from Figma designs, focusing on component structure and UI polish, and integrated REST APIs built with Express.js.
